Join at [hriplus.com](https://hriplus.com)

**A simple, supportive membership  
to help you stay prepared  
and feel more at ease.**

- Always have your HRI ID, physical and digital**  
Your official cardiac device ID, in your wallet and on your phone.
- Store medications, allergies and key info**  
Everything in one place: check-ups, emergencies, or travel.
- Share with your doctor or family in seconds**  
Share key info at the tap of a button. You stay in control.
- Identity bracelet and 3 key fobs included**  
So others can help you, even if you can't speak.
- Lost something? We'll replace it for free**  
Your ID card, bracelet, and key fobs are covered as part of your membership.
- Dedicated support when you need it**  
Call our HRI Plus Info Line. Real people, ready to help.

**Also ideal for families and carers who want  
to stay informed and feel reassured.**

**You're always in control.**

Nothing is shared without your permission.

**Simple to join.  
Invaluable to have.**

- Choose your membership**  
Join online at [hriplus.com](http://hriplus.com), by phone on +353 (0)41 6871457, or by post. Choose the monthly or annual plan that suits you best.
- Your device details are already there**  
Your device details are already on record. Through the app you can also store medications, allergies, blood type, donor status and medical records.
- Use it in everyday life**  
At home, while travelling, or at any appointment, your information is accessible to you, your family, and any healthcare professional who needs it.

HIQA recognised | GDPR compliant | Since 2008

#### WHY IT MATTERS

**Living with a cardiac device  
should not mean uncertainty.**

- What if you're abroad and something goes wrong, and no one around you knows you have a cardiac device?
- What if you're in an emergency and can't speak for yourself?
- What if your family doesn't know where to find your information?

**HRI Plus puts the answer to those  
questions in your pocket.**

**Everything your family and care team need,  
always within reach.**

“

*Easy to get logged in. I was able to quickly share my details with my wife, which gives both of us peace of mind. Great to see something like this for people with cardiac devices.*
